Description

TERMS OF REFERENCE

SUBSCRIPTION TO ONLINE AVIATION DATA

1. BIDDER: Air Travel and/or Tourism Data Provider

2. OBJECTIVES

- Subscribe to aviation intelligence data provider that will enable the Office of Product and Market Development and the Route Development Team to acquire vital and up-to-date aviation analytical data tools;
- Gather and analyze pertinent aviation data on the Philippines and its competitor countries that will enable DOT to formulate a Route Development Strategy aimed at enhancing long-term growth for Philippine international gateways and destinations.
- Provide aviation data which may assist the Philippine Air Panel members in formulating the government's decisions on critical issues deliberated on by the panel; and
- View potential market opportunities based on historical, current, and future air passenger market, schedule, and airport data.

3. MINIMUM REQUIREMENTS

- A Philippine-based OR international Online Aviation Data Provider
- Must be PhilGEPS registered;
- Must have at least 3 years of experience in providing service of similar nature;
- Must have provided air travel and/or tourism data and analytics to other National Tourism Organizations (NTOs) or Destination Management Company (DMC); and
- Must be willing to provide services on send-bill arrangement.

4. SCOPE OF WORK AND DELIVERABLES

The supplier must provide the Department with an online platform for airline and airport data accessible to at least thirteen (13) concurrent users. Access must be unlimited.

The following offices will be provided access to the aviation data:

- Route Development – 2 passes
- Office of the Secretary – 1 pass
- DOT Overseas Offices – 7 passes (China, Japan, Korea, Taiwan, Australia, Europe, North America)
- DOT Regional Offices – 3 passes

Ultimately, this platform needs to have the breadth and depth of data analytics that allows the user to have a deep understanding of air travel evolution (e.g., which source markets and types of traveler profiles are favoring and traveling into/through the Philippines, and how long are their stay) so that the Department is able to establish effective strategies in a timely manner to leverage on the travel recovery post-COVID-19.

- Up-to-date air travel data should include the following:

- o Air Capacity Module

- Seasonality and scheduling of reports
- Future seat capacity and historical capacity
- Ability to reflect on adjusted airline schedules due to the COVID-19 pandemic.

- o Air Travel Module

- Ability to report on air travel ticket bookings.
- Ability to provide a monthly/quarterly/annually comparison report by route/country/region
- Ability to report on estimated worldwide flown traffic and fares data.
- Ability to report on total market size
- Identification of unserved routes
- Additional features which are appreciated but not strictly required:
 - Ability to forecast short-mid-long term air travel performance.
 - Forward booking data

- Air Capacity Database update frequency and latency should be refreshed at least on a monthly basis.

- High quality onboarding (introduction, training) and customer support for DOT staff in the use of the online platform(s)

- Access is for a period of three (3) months upon the issuance and acknowledgement of the Notice to Proceed.

5. PROJECT DURATION AND BUDGET

- The service shall run for a period of three (3) months upon issuance and acknowledgement of the Notice to Proceed.

- Total budget is One Million Pesos (PHP 1,000,000.00) inclusive of all applicable taxes, service fees, bank charges, and other fees that may be incurred in the process.

6. CONTACT DETAILS

Inquiries may be coursed through:
